We believe that preventative care will keep your pets healthier longer, adding years to your pet's life and keeping you both happier. Start your kitten off right with one of the following wellness plans. This chart can help you decide which plan is best for you and your pet. Remember, cats age 6-10 years for each one of our human years. **You can purchase a plan within 30 days of your previous visit, and that visit's costs can be applied to your chosen plan where applicable.**
